NAUSET REGIONAL HIGH SCHOOL

Registration Process for 2010-2011

All materials relative to the Program of Studies and selection of courses can be found on the Nauset Regional High School web page at www.nausetschools.org/nrhs. Open the link to the high school and select on "Program of Studies".

Listed below are some key points for quick reference:

- All students must sign up for seven (7) credits per year. Courses are 1 credit – full year course; ½ credit – ½ year course. When a student chooses a ½ credit course, there always needs to be two (2) to fill a full year for that block.
- A student must have 26 credits to graduate. We currently require four (4) credits in English in Gr. 9, 10, 11, 12; U.S. history and two (2) other social studies credits in Gr. 9, 10, 11; two (2) science credits and three (3) years of Physical Education/Health. (Starting with class of 2011, 3 Science and 3 Math credits are required)
- When planning a schedule, it is important to understand the homework expectations. A general guideline by level is the following:
 - Advanced Placement – 2 hours or more
 - Honors – 1 ½ hours or more
 - "A" level – 45 minutes or more
 - "B" level – 30 - 45 minutes
- A very important part of the selection process are teacher recommendations. At every grade level, a teacher in that subject area will give their best advice to the level of work that fits your child best.

SIGN UP DATE BY GRADES:

Current Juniors: March 23rd – March 26th

Current Sophomores: April 6th-April 9th

Current Freshmen: March 30th-April 2

Students will be sent from class to meet with counselors. It is important that you have your sign up sheet completed when you meet with counselors.

GRADE PROMOTION POLICY

Freshmen: Students in Grade 9 must earn 6 credits, including English 9 in order to be promoted to Grade 10.

Sophomores: Students in Grade 10 must have earned 12 credits including English 9 & 10 in order to be promoted to Grade 11.

Juniors: In order to be promoted to Senior status, students must complete the following requirements

19 credits including English 9, 10, 11 in addition to sufficient academic course work that insures graduation requirements as listed below

GRADUATION REQUIREMENTS

Seven (7) full units must be taken each year. The following subjects must be included in the student's four year program:

Four (4) in English

U.S. History and two (2) other social studies in grades 9,10,11

Three (3) in math

Three (3) in science

Three (3) years of physical education / health

English is cumulative in its skill development; therefore, students who fail English for the year must attend summer school and receive a passing grade before they can continue at the next level. Students will not be allowed to enroll in two (2) English courses in the same semester. Students must pass six (6) units in the senior year regardless of their previous accumulation of credits.

Graduation requirement is 26 credits.
