## 2011 MCAS Scores: Nauset Regional High School Level of Performance

In 2011, Nauset Regional High School earned a Composite Performance Index of 98.7 in ELA and 96 in mathematics. Based on these scores, the high school has achieved a “Very High” performance rating in each content area. As a Level 1 school, we have achieved Adequate Yearly Progress in mathematics and ELA from 2004 through 2011. We do not let “good” stand in the way of “great and are dedicated to continually enhancing our learning environment for all students. By examining our curriculum, instruction, and assessment strategies we are able to make modifications as needed to enhance student achievement. Our commitment to education translates into many positives! To date, 87% of students in the class of 2012 have fully met the Competency Determination requirement for graduation. In addition, 81% of Nauset High School students who took advanced placement exams received a passing score of 3 or higher during the 2010-2011 school year.
