

Here are the steps to Upload iMovie Videos to Google Drive on iPad:

1. Open "iMovie" on your iPad.
2. Select the video which you want to upload.
3. Tap "Share" icon located in the center of the screen. This will bring up several options to save your video

4. Chose Save video and then select an export option. HD 1080 is my preferred export size. The iMovie will begin to export to your Photo library.

5. Exit "iMovie".
6. Your iMovie was exported to the Photos App. To save this to your Google drive do the following.
 1. Tap the "Google Drive App" on your iPad.
 2. If you don't have a folder for your photos it is recommended that you create one. Then open the folder you want to save your photos to.
 3. Tap the "+" button located at the top-right corner of the screen.
 4. Select "Upload Photo or Video".
 5. Tap "Camera Roll".
 6. The "Camera Roll" window opens up. Select the video (which you want to upload)
 7. Tap the "Upload" checkmark button.
